

Sound Symphony

Welcome to the Sound Symphony Interactive website.

This is a website where you can create your own "Sound Symphony" by playing a selection of videos.

The videos are of musicians playing a range of instruments and objects in different places.

Access settings:

There are 3 access buttons on the left hand side which allow you to change 3 different access settings:

- Colour contrast on the page

- Change the font size

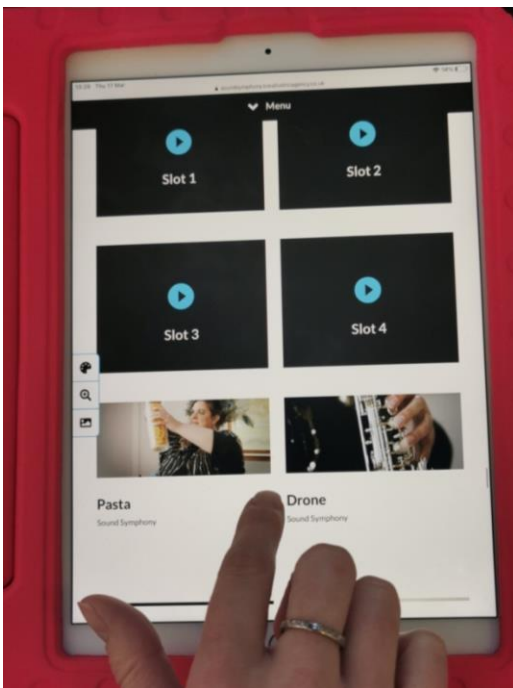

- Remove images (e.g. logos)

How to play videos from a mobile and tablet:

Add videos to play

Step 1: Go to **“menu”** at the top of the page and select **“Add videos to play”**

Step 2: To select videos scroll through the video bank at the bottom of the screen.

Hold your index finger on one of the videos for two – three seconds and drag into slot 1,2,3 or 4 until the white dots appear.

Repeat for four videos.

A blue rectangular button with a white floppy disk icon on the left and the text "Save" in white to its right.

Step 3: When you have all four videos in place, Press the **“save”** button in the menu at the top.

A blue rectangular button with a black play triangle icon on the left and the text "Play videos" in white to its right.

Step 4: press the **“Play videos”** button below each of the 4 selected videos to play them one at a time, in any order you choose.

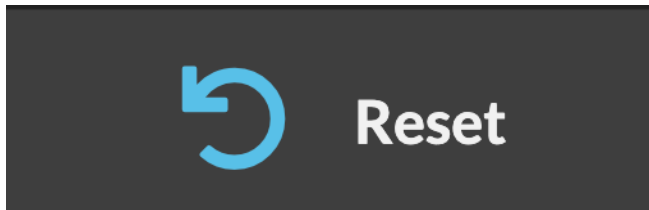

A blue rectangular button with a black pause icon (two vertical bars) on the left and the text "Pause videos" in white to its right.

You can **“Pause videos”** at any time.

A dark grey rectangular button with a blue pencil icon on the left and the text "Edit videos to play" in white to its right.

Step 5: To change the videos to a new selection, press the **“Edit Videos to Play”** button.

This button is in the menu at the top.

The you can press the **“reset”** button to start again. This takes you back to Step 2 when you can drag new videos into the 4 slots, save, then play your new selection.

At any time you can select the **Audio only** option at the top of the screen
